

**DARTMOUTH-HITCHCOCK MEDICAL CENTER  
(LEBANON, NH)**

**Addiction Psychiatry Fellowship**

We are accepting applications for our Addiction Psychiatry Fellowship for the 2021-2022 academic year. With core experiences at Dartmouth-Hitchcock's Addiction Treatment Program and the Veterans' Affairs Medical Center (VAMC) at White River Junction, VT, this one-year fellowship provides a robust clinical experience in a variety of treatment settings.

Training at Dartmouth-Hitchcock offers the quintessential New England experience. With no New Hampshire income or sales tax, this beautiful area has been ranked consistently as one of the best places in the U.S. to live and work. Also home to the Geisel School of Medicine at Dartmouth College and NIDA's Northeast Node of the Clinical Trials Network (CTN)—you will find nationally and internationally recognized research and collaboration opportunities available for a rich academic and clinical experience.

Lebanon and the neighboring town of Hanover, home to Dartmouth College, are located in the "Upper Valley" which straddles the pristine Connecticut River, a national heritage river, and includes 46 towns in western New Hampshire and eastern Vermont. This local region boasts excellent local schools, a myriad of cultural opportunities through Dartmouth College, with an abundance of recreational opportunities.

Interested applications should contact:
